

## Astro's Oil Renal Care Protein Instructions

**Dosage for cats:** 1/4tsp 1-3x/day as required.

**Dosage for dogs:** 1/4tsp 1-3x/day per 15lbs as required.

Can be mixed into canned or wet food. For higher doses mixed into food, mix Renal Care Protein with a little water first to dissolve it, this will prevent adding a gritty texture to the food. If pet is not eating on it its own, mix the dose with a little warm water and pipette directly into pet's mouth.
